I hope that this safety toolbox booklet will help lead job safety and health discussions that will raise awareness, reduce injuries and illness, and prevent fatalities.

This informational booklet is intended to provide a generic, non-exhaustive overview of particular standards-related topics. This publication does not itself alter or determine compliance responsibilities, which are set forth in standards themselves and the Occupational Safety and Health Act of North Carolina.

Moreover, because interpretations and enforcement policy may change over time, for additional guidance on occupational safety and health compliance requirements, the reader should consult current administrative interpretations and decisions by the Occupational Safety and Health Review Commission of North Carolina and the courts.
